

Sports Premium at Bournebrook

The total allocation for 2018 – 2019 was £17010

Spending and impact during 2018 - 2019 were as follows:

Item and cost	Used to support	Why	Impact
Employment of a part-time PE leader. £7100	PE teaching in Y1,2,3,4,5,6 (alongside the classteacher) and also providing two days of after school clubs for year 4/5/6 and one after school session for fixtures.	A staff member with an expertise in this area ensures that all lessons are of the quality expected. This also allows the classteacher and PE leader to work together on planning and delivery as a team. Bournebrook believes that after school provision should be free and therefore available to all who wish to attend.	PE lessons are more precisely tailored to the ability and skills of individual pupils because of two members of staff in each session. Children can be supported individually in improving technique or style. 100% increase in numbers attending some after school clubs. Children who had previously not attended now taking part. Some of these children are those who have been inactive at lunchtimes.
After school provision by Fitkids £3600	Children in years one, two and three.	After school provision for younger children limited and parental communication indicated that there was a need. Bournebrook believes that after school provision should be free and therefore available to all who wish to attend.	Children who had previously not attended now taking part. Some of these children are those who have been inactive at lunchtimes.

Sports equipment and subscription to local sports consortium for entry into competitions £178 and £100	All children.	Some sports equipment was in need of replacement. Bournebrook strives to compete with other schools in as many sports as possible.	Bournebrook has had success in relation to its size, currently holding the silver standard of school sports award. An example of our success is our year 6 rowing team qualifying for the regional finals in 2017/ 18 and19.
Lunchtime play leader two days a week £1000	Specifically for year 6	To promote positive, active play at lunch and support with friendship issues.	Issues at the beginning of the academic year have been addressed and physical activity on these two days is increased.
One year's subscription for the Prince William Award £6400	For year 5	To promote physical and mental well being as well as developing resilience, teamwork, problem solving and cooperation,	This is due to start in September 2019 (advance payment required).
