# YESTERDAY'S INVESTIGATIONS

How did you get on with the investigation yesterday? If you found anything out that you would like to tell me about please let me know through Facebook or email it into school. There are no right answers as such, as I said it was all about exploring the numbers. If you send me your thoughts I can share them with everybody next week to see if they thought the same or different.

# TASKS FOR TODAY

## Everyone

As it is Friday we are all going to do an arithmetic test today. I have put two different ones up. Most people should be doing the second one (5A) but Holly and Lucy can do the first one (3A). Do them as we normally do them in class with no help. You can have 20 minutes to do the test. Set up your book with 1-15 (H and L) or 1-18 (everyone else) and then when you are ready go to the next slide. Answers on Monday.

**Arithmetic: Test 3 A**

1)  $409 + 100 =$

2)  $172 - 100 =$

3)  $57 + 20 =$

4)  $106 - 40 =$

5)  $178 + 500 =$

6)  $340 - 300 =$

# TASKS FOR TODAY

Once you have done the test you could have a look back at anything from the week that you didn't manage to finish or that you need a bit more practice on. Or have a go at some of these mental maths games which are great for practising doing things quickly in your head.

Well done and hope you have a lovely weekend. Dr B.
