

**DR BAKER'S YEAR 3 MATHS**  
**WEDNESDAY 13<sup>TH</sup> MAY**

# WELCOME

Good Morning. Here are the answers to the times tables. How did you do this week? If you are continuing to practise on Rockstars they should be gradually getting easier.

$$4 \times 7 = \underline{28}$$

$$7 \times 5 = \underline{35}$$

$$8 \times 7 = \underline{56}$$

$$8 \times 3 = \underline{24}$$

$$3 \times 4 = \underline{12}$$

$$4 \times 11 = \underline{44}$$

$$7 \times 2 = \underline{14}$$

$$2 \times 3 = \underline{6}$$

$$1 \times 3 = \underline{3}$$

$$6 \times 5 = \underline{30}$$

$$4 \times 2 = \underline{8}$$

$$8 \times 12 = \underline{48}$$

$$5 \times 5 = \underline{25}$$

$$9 \times 3 = \underline{27}$$

$$9 \times 8 = \underline{72}$$

$$5 \times 7 = \underline{35}$$

$$5 \times 3 = \underline{15}$$

$$4 \times 1 = \underline{4}$$

$$4 \times 3 = \underline{12}$$

$$4 \times 9 = \underline{36}$$

# TASKS FOR TODAY

L.O. To practise column addition and subtraction

Even when we can do column addition and subtraction we often make mistakes by doing the wrong one at the wrong time so today we are going to do a mixture of both and I want you to be really careful that you are doing the right one. First up there are some word problems which I want everyone to do – you just have to say whether they are add (+) or subtract (-). Then pick level A, B or C depending on what you finished on yesterday and work as normal but read and copy down the question very carefully and when you have finished it just check again to see you have used the right operation.

# ADD OR SUBTRACT ?

We know picking the right operation is half way to solving the problem so decide which of these questions require you to add and which subtract. You don't have to answer the questions.

1. Two trees are growing in a forest. One is 6m high and the other is 3m high. How much higher is the first tree than the second?
2. I have 1kg of flour left in my cupboard. If I make a cake using 300g of flour how much will I have left?
3. I need 40 pencils for the children in my classes. If I have 7 left from last year how many more do I need to buy?
4. At a football match there are 23000 home fans and 6000 away fans. How many fans are at the match altogether?
5. I need 40 cakes for a charity event. If I have 23 chocolate cakes and 15 Victoria sponge cakes do I have enough?
6. William wins a race in a time of 48 seconds. Len is in second place. If he is 3.5 seconds slower what is his time?

# SET A

$$\begin{array}{r} 37 \\ + 87 \\ \hline \end{array}$$

$$\begin{array}{r} 61 \\ - 33 \\ \hline \end{array}$$

$$\begin{array}{r} 23 \\ + 35 \\ \hline \end{array}$$

$$\begin{array}{r} 89 \\ - 45 \\ \hline \end{array}$$

$$\begin{array}{r} 75 \\ - 44 \\ \hline \end{array}$$

$$\begin{array}{r} 89 \\ - 57 \\ \hline \end{array}$$
